

PHOENIX THEATRE HIRE RATES

A note on Performance (3Phase power) vs. Rehearsal Rates.

The Phoenix Theatre has two basic rates of pay. Performance rates, for which 3Phase power is utilised, reflect the significant jump in running costs when these services are required. Rehearsal rates, where minimal lighting and sound requirements are needed, are intended for individuals or groups requiring the space for a variety of performance based uses such as rehearsals or meetings, but not for the purposes of actual performance.

Performance events also include a supervisor and bar staffing for tea and coffee.

Please note:

- Hire rates for the space are calculated as a full hour being 15 minutes or more after the hour, (i.e.) at four (4) hours and twenty minutes a charge of five (5) hours will apply.
- Time is calculated from the time the theatre has agreed to be open until the hirer vacates the building and doors are locked.

All hire fees and rates are at the discretion of the management and negotiable for projects that fall under the Phoenix Theatre development banner or co-productions.
